**10:40 Speed networking**

*Speed Networking is a great ice-breaker that sets up further discussions later on at the conference. In this session, delegates are invited to join one of the cocktail tables in the exhibition area and stand behind either a red or a green envelop. When the bell rings they have 3 minutes to introduce themselves and exchange business cards with all other delegates at the table. When the 3 minutes are up, the bell rings again and, reds stay where they are, while greens move to the next table in a clockwise direction, where the process begins again.*
